## Student Cell Phones

In 2010, cell phones have become a great resource to support parent-student communication. However, student cell phone use during the school day significantly disrupts the educational environment. As a result, students are not allowed to use wireless communication devices (cell phones) during school hours. Parents/ guardians are asked to reach their children by calling the school office.

Student cell phones must be turned off & kept out of sight during the regular school day and at no time are permitted in a locker room. Students are solely responsible for the care and security of their personal property. Neosho School assumes no responsibility for theft, loss, damage, or vandalism to cell phones brought onto school property or for unauthorized use of such devices.

The faculty at Neosho School greatly appreciates your cooperation.

## Student Update

A member of our Neosho School family, Hank Schinner, 3<sup>rd</sup> grade student, was in a hay wagon accident on Saturday, September 25. Hank is currently in Children's Hospital and is in recovery mode. He is in good spirits and is tentatively scheduled to go home over the weekend.

Mr. & Mrs. Schinner are optimistic that Hank will eventually be 100% back to his old self! They request that we refrain from preparing meals for the family but welcome our thoughts and prayers for Hank.

We all miss Hank at Neosho School and wish him a speedy recovery!
