Mr. Grimm

Hey, make change! Let's beat cancer!

LEUKEMIA &
LYMPHOMA
SOCIETY*

Dear Parent/Guardian,

Your child has an incredible opportunity.

In the coming days, he/she will be instrumental in a school program that will raise funds for lifesaving treatments and cures for blood cancer patients. This is a special chance for your child to have a big impact on others.

Your child's school will be participating in The Leukemia & Lymphoma Society's (LLS) School and Youth Program, Pennies for Patients. During a three week period, students collect spare change to support LLS's mission; to cure leukemia, lymphoma, Hodgkin's disease and myeloma and to improve the quality of life for patients and their families.

While the impact your child will have on so many lives is significant, their own sense of service and philanthropy will be immeasurable. In fact, many of LLS's advancements are used for patients with diseases beyond those for whom they were originally developed, such as, solid tumors and auto immune disease.

A collection box will be given to each child to collect the spare change. If the results from past Pennies for Patients Programs are any indication, the students will fill up the boxes with change to spare!

In addition to collecting spare bills and change students are encouraged to use their online donation page. Each school has a donation page. The link can be shared with family, friends, coworkers or neighbors. This allows people to donate even if they are not in the area or if they do not have cash available. If your place of employment supports matching donations this gives them the opportunity to send a donation online. The student with the highest amount of online donations will win a very special prize. The school with the most online donations will win an education gift card! Help your school by donating online and sharing their link. When making an online donation please specify your student's name. Visit www.schoolandyouth.org/wi/donate to donate! LLS thanks you in advance for helping patients with blood cancers live better, longer lives.

Sincerely,

Casey Witkowski
